# There's absolutely nothing like...

having a good engine...

# ehind you!

The advantages of having Cormir's Turbo-Air 6 behind you go on and on. Why? Because Corvair's specific design puts extra weight at the rear wheels, giving you far be traction for quicker starts and sure stops in all weather. The ride is always smooth and steady — handling is more precise. And, of course, in Corvair you leave engine noise and heat behind you. You get the special advantages of air-cooling — no more anti-freeze or radiator expense an-coming — no more any-needs of radiator expenses
plus a virtually flat floor for greater passenger comfort.
And Corvair's six horizontally opposed cylinders give a
"pancake" design for matchless smoothness and efficiency. The Turbo-Air 6 is one of the big reasons why Motor Trend magazine enthusiastically acclaimed Corvair "Car of the Year".

Check the reasons for yourself — then put Corvair's six cylinder engine behind you soon — you'll love it! See it ... drive it ... CORVAIR by Chevrolet.

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor They're experimenting with international a hey're thinking of giving amateur hockey the in

Len (Kilchener Record) Taylor, who covered the CAHA annual at Sydney, N.S., last week mys formation of a five-country trans-Atlantic international anatom hockey loughe will be comidered this summer.

He says the subject will be discussed at the annual meeting of the World Ice Hockey Federation at Rimba in Italy in July.

The idea is eight years old, says Taylor, and according U.S. Amateur Hockey boss Tommy Lockbart, "it was urbed at then."

These clubs would play home-and-homes the would mean that each of the North Al ms and each of the three European squads well trans-Atlantic jamt during the scasons.

accepted. The U.S. teams would probably some from the

Eastern and International Lexymen.

Ii all sounds very lovely-on paper.

But there are several questions, however, which cafter looking over the proposal.

First—When would the international games be played.

At what time of the season?

Third: Where would the rames in Canada be played? Apropos of that, it seems the only logical places from an attendance point of view would be Toronto or/and

Who is going to pay the "salaries"—let's not quil time off from work—and expenses overseas?

European teams have no qualms about this matter ther would the U.S.A. clubs have any worries.

After the experiences of the Belleville McParlands in the 1839 world tournament and the Kitchener Dutch-men in the 1840 Olympics, it seems the day af individual clobs paying for the privilege of upholding Canada's hockey prestige is over.

Perhaps that is the reason the Chatham Maroons re-cifully declined the 1961 world tourney in Switzerland— i took the tess expensive Russian exhibition tour.

If a Canadian team or learns are to represent the tion in the proposed International League, the costs suid be underwritten by the CAHA or the government. And the OHA and other Canadian senior "A" leagues

If the CAHA is so anxious to enter a Canadian team n'its jointly-proposed International circuit, it should elect the top senior "A" players and form a national

As has been suggested in this column before, this national" club could be organized and trained as a unit say before the international logue gets under way, I could play exhibition games or like the Hall-Ottawa anadiens of two years are play in the OHA accededi-tith no right to playoffs, until its overness extirities

After all OHA fans have some rights. And the CAHA could ruin senier backer in this part of the country by doing as has been suggested, and taking the international club or clubs from the OHA ranks.

He will not admit it, but the finest feather of achieve-ment in the Watson cap, is his work done for the crippled children of the country. Every year when the Oniario Sportswriters and Sportscatters' Association holds its octrbrittes dinner in ald of the crippled hiddes, the "White" is the presental bodynamic of the selected "Timmy," a crippled child chosen to represent his fellows at the function—and many

If the sportswiters and fans of the era of Jim Corbett, world heavyweight boxing champion, were around today they would have no heitiancy in attaching the same name to the Whipper as they did to their ring hero. They called him "Gentleman Jim Corbett."

And a name like that would fit the Whipper like an

For Billy Watson is a gentleman inside the ring—and outside the ropes as well.

He's the kind of a guy you'd like to have on your side. He is the type of chap you'd like to tell people is going with your sister. He's a fellow, who on first impressions, makes you feel you could trust your life, your wallet, and—wrill—anything with for safe-keeping.

In our many years of wrestling coverage, we have et and written about the Whitper on occasions too num-ous to mention. We have never reported anything trimental to Jun. We have never had to. He docen't re sportswriters such an opportunity.

Like any other red-blooded athlete, Whipper Watson I proud of his realm of sport. He should be extremely proud of the part he has played in it. He always wrestles to win His methods are clean, aboveboard and for the purpose of victory, not to maim or hurt an opponent in any way.

THE ECONOMICS OF ADVERTISING

# \$21/4 MILLION DOCUMENTED SALES FOR AN ADVERTISING **EXPENDITURE OF \$4300**

In all successful advertising there must be a message of public interest ... a suggested advantage to the reader that will promote a favorable reaction.

Daily newspapers provide an interested audience for advertisers .... at the lowest advertising cost of any medium.

An interested audience plus low-cost coverage makes daily newspaper advertising the cheapest and most effective form of advertising.

Recently a member of the CAAA\* placed an advertisement for a large financial institution in CDNPA member newspapers at a cost of \$4300.

This specific advertisement contained a coupon and invited interested newspaper readers to fill in such coupon and send an accompanying cheque subscribing to the securities being advertised.

The advertisement in question produced coupons with cheques attached, with an approximate value of \$2% million.

By GEO. H. CARVER. Sports Editor

A group of passured professional hocker players have not what they call Becker Schools designed to up the wiedge and general hockey know-how of boys between and 14 Jyars of age.

9 included in the faculty are such ex-pros as Tomn' Windy' O'Nelll, Hank Goldup, Gus Bodnar, Bill Durns Turk Brods, 'Butch' Keeling, Wally Stanowikl, Harry, We son, Bob Goldham, Alex Davidson, Herb Cain, Roy Conache Gree Currie and Sid Smith.

Further plans cell for the accommodation of up to 156 youngsiers between the ages mentioned on each day of speration. But the school considers the delan set-up would be an envelopent of a little over 150-players, split by age groups, into clauses of 23. Each "claus" will get about one hour of lec-time a day, with another hour of films; chils talks and a question period.

For these services each boy will pay two dollars day and supply his own room and board. Rinks in Bramp ion and Bradford have "signed."

Three instructors will handle each school, following a ine-point instruction system which includes advice on stick-andling, shooting, goalkeeping and other phases of the game.

The financial picture is foggy. Supposing noch as school was held here for any, some 340 boys for three days the "take" would be \$1.200, It is presumed the three instructors would share that amount after expenses, such as rink rentals, etc., had been deducted.

The bugbear of minor hockey in Ontario and especially this city, has been the lack of fee-time for the mospets ast year 1,400 youngsters from squirt to juvenile passed trough the hands of the Belleville Minor Hockey Association.

We are not questioning the coaching or/and teaching lity of all or any of the instructional faculty of the school are or were well-known names in professional hockey, by should be good coaches, practical or otherwise.

Team play, offensive manoeuvres and defence tactics a team could be taught. The Hockey School could reely accomplish this with 28 players from, say, four or different teams, out there for an hour's instruction.

We have nothing against the Hockey School, its in-structors, or its plane. But why pay for seastthing when you can get it done at home, at less cost and with greater benefits and at the same time patronialing "home in-dustry."

G WITH CANADIANS IN EVERY WALK OF LIFE SINCE 1817

# Could your family reach the shore with only one oar?

When a man dies, his family cannot suddenly develop half an appetite, purchase half a pair of shoes, make do with half an education.

They cannot live in part of a house, pay part of a doctor bill, drive a piece of a car, any more than they can row a boat with only one oar.

What part of your present income would your family get? What part would your present insurance and other assets provide?

What minimum income would your family require for food, housing, clothing, utilities, health and education—to live the way you want them to?

Your Metropolitan Man can help you compute your family's unique and special needs. And he can help you provide for them with individually tailored

And you'll be happy to learn how much protection your family can have—and you can afford— with a thoughtful program worked out by an expert.

Your Metropolitan Man is equipped with the widest assortment of policies in Metropolitan's history, with the newest and most flexible pro-visions and benefits. There was never a better time. Call him now.

### Public-Safety Officers

s of our readers has thoughtfully called our m to a brief article in Reader's Digest, reporting success of Oak Park, Mich., in its policy of They were ng its police and fire departments.

e some four years ago.

Reader's Direct save: "The unified force with ers trained to fight both crime and fire, gave the by protection at low cost. These public-safety offi-rs worked—actually worked—eight-hour shifts, most at them in patrol cars equipped to fight fire, each frain-timinals and handle traffic. Because nobody just six and, Oak Park needs only 53 safety men, compared Wes ith an average of 104 policemen and firemen in the her cities in its population size. In many cities, circumstances of the professional fire-fighter's life him little to do between calls but wait in comrative idleness. Some of them like it that way and are passed resolutions against Reader's Digest for nging the Oak Park facts to light. The city, they charged, will pay for its folly in higher insurance es and in frightening loss of life and property by

But U.S. National Board of Fire Underwriters last ear reduced residence insurance rates in Oak Park y 11 per cent; in 1959, 168 of Oak Park's 198 building tres were extinguished by cruising officers before the at truck arrived.

Facts like these may make some wonder whether a Oak Park system might not work in Ontario cities that a Belleville. We must admit, though, that we we some reservations regarding the scheme. In the tiplace, notice the statement that "most" of the blic-safety officers were cruising around in patrol public-salely officers were cruising around in patrol
set, "That would require a lot of cars and cars are
sensive. Secondly, a man who is both a good police
if and a good fire-fighter ought to be able to comtifd an aleny considerably, higher than a man who is
discurant or a fire-fighter. Thirty, in the case of
aspic fife, what happens to law enforcement is other
that of the community? If the primary function of only as also
police were to deal with any other element of the
regulation but the criminal-midded, this might not be
compared to the community of the property of the composition of the community of the property of the composition of the community of the property of the community of the community of the property of the community of the jor objection. But what is to prevent the criminal starting a fire in the suburbs just before robbing wn? Certainly not his conscience

The major flaw we see in the present fire-fighting police departments in most Ontario centres is the set of a decision by an arbitration or conciliation ard some years ago, which ruled the firemen are littled to receive equal pay with policemen. We ard this as less than realistic. Nevertheless, this sion has been used by fire-fighters, if not to receive al pay with the police, to win wage increases much qual pay with the police, to win wage increises much age that might otherwise have been granted by uncells. Councils are afraid that if the wage issue with the councils of the police was to additional they will have to pay fremen the many councils. The police was to be provided the police will be provided to the police will be provided the police will be provided to the provided to th

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Edite

His legacy is in the Bucs' infield and out all his. One way or another he is respon-tracts. There are some, such as Roberto Ci-tey acquired not once but twice.

The guis of the club and its leader is Dick Great shoristop and a Dake graduate who accepted a Rickey as of \$35,000 in 1932 when most acouts were scared hase "be couldn't run frat."

But Rickey had faith in him as he had in second asseman Bill Maserouki who he picked off the sandlets, nd who can get the ball away as fast as Rizzute. First asseman Dick Stuart is a Rickey sequisitien.

Bob Skinner, a free agent, handled a bet like Dizie ker and Rickey went for him. Centre fielders Gino soll and Bill Virion are Rickey products. He got Ci-t to Brooklyn for \$415,000 a part of a \$30,000 boous pack-Brown acquired him last winter in a deal with the

Rickey made the deal for Virdon with Frank Lane on Lane was in St. Louis. Rick tossed in a oscyple players, including Bobby Del Groco. Lane later ad-ded he had been hormswegted. "It was the worst I ever made," be admitted.

Outside of the infield and outfield, the Pirates teber they can thank Rickey for. He is the back he bullpen, little ElRoy Face, who made a brill of record for himself last year and has found hir r a slow start this season.

Rickey didn't get the Firste ace, Vernon Law, but Been have Afm. And few teams to date this year is laid down the Law. Incidentally, Law's wife's se is Vania. They have four children. Veldon, oc, Veryi and Vaughan. Mr. V says the "V" is for

By GEO. H. CARVER, Sports Editor

They have dobbed bim "The Metoco." And the mag-leut one boasts a record that can never be broken in a s-infining errories bell game.

The other night he struct out IT—count 'un—II, and o show he venuality the 24-year-oil socked, a twe-tran source that helped no could in the victory quost.

He allowed two hits, walked a pair, and whiffed four ters in one inning when his catcher dropped a third ke—and the runner made it. He broke his own record of 24 strikeous for a nine-inning game. Sodbury writers claim he holds the record for extra-innings games. This scourred last year when he whiffed 3 in an 11-inning game against the Torocic

Sudbury, it seems, is becoming poor territory for thall but salesmen, since the nickel town started to nort harlors from down Windsor way.

And closer to home, what kind of a virus struck the Coboury Merchanis the other night? The Trenton Halterius, in unbely gles, dumped, thumped, clumped and trumped the blacelds acce, Campbell and Dawn, plumb est of the hometown deck.

Meanwhile, the Bobcals take on Pat Maracle and Descronto Braves at the CNRA Park tenight—and the oblies had better not take too much for granted. It peared to Coboury—and it could happen here. Why find out? Game time 6.45.

le panorama-magnifique!

You stand on the shore as the mighty St. Lawrence laps at your feet, les goélettes of Gaspé ride quietly at anchor. Or you marvel as the day's first sunlight caresses Percé Rock, sentinel of the Gulf. Perhaps you'd prefer a caleche ride through the narrow winding streets of Québec, North America's only walled city. Or the exhilarating excitement of sophisticated Montréal. Whatever your vacation wish, Québec can fullfil it. So, visit us this summer, neighbour. The coupon below will bring you the latest travel information.

Reflecting upon this thought, we felt that this the coine of the coine of

selves.

The attainment of material goals preoccupies our minds. Two few of us pause to consider that we actually owe more than we can ever or, more accurately, shall ever, be called upon to pay for the privilege of living in this land of ours. Of the few that do, perhaps, pause to consider this debt, too many make absolutely no effort to pay the interest.

Almost everyone is ready to let the other fellow do it so that he may be free to carry on with his own nor personal goals and objectives without let or hindrance. Bisir, as is known, or should be, is the manager of the teur Whitby Dunlops and the Clinton Comets, and man-coach of the professional Kingston Frontenacs.

Friday night he said the senior OHA was of a calibre nearly as good as the American league." He wanted it to survive and suggested that all member clubs do their best to make the league go.

In another breath he stated, "If this is going to be a r-team league, I will withdraw the Whitby Dunlops, that means there will be no learne."

He has become one of the central figures in a rotal hassle in Kitchener that has bockey figure y up in the air.

He clashed in wordy combat with the Dutchman man-r Ernie Goman, and in a post-meeting duel with Kit-ner sports editor Len Taylor.

Be that as it may. There is little doubt that Kil-chener will not be in OHA competition next season. "They will play." Tayler old the properer "if they have to use the Walerton rink. Fro backey went downs the drain in Kilchener a few years are. People know what it is—and will not no for it."

WINS "COMPACT" CLASS IN FIRST CANADIAN GAS ECONOMY TEST

## Rambler American Custom 2-Door averages 31.1 m.p.g. in Toronto Star Gas Economy Run!

In one of the most thorough tests ever devised, the Rambler American proved once again that It is second to none when it comes to fuel economy.

The tests, designed under the supervision of Pro-fessor William Wallace of the Mechanical Engin-cering Department of the University of Toronto, probed deeply into the gas saving characteristics of the competing cars under all conditions, likely to be encountered in eyery day driving.

Rambler averages 34.2 m.p.g. in Highway Test This test was designed to show the cars' gas econ-omy under normal highway conditions at speeds varying between 40 and 60 m.p.h.

Rambler averages 25.3 m.p.g. in Traffic Test

under traffic conditions, with sections to be cover-ed at a creeping 8 m.p.h., others at 18 to 25 m.p.h., interspersed with stops of up to 40 seconds for traffic-lights, during which the engines were kept running at idling speed.

All the cars in the competition were driven by the same driver through all the sections of the test. Naturally, we at Rambler are proud and happy that the Rambler American has proved its out-standing gas economy once again, but even so, gas economy is only part of the Rambler economy story.

Rambler's true economy is a combination of many savings: Low Purchase Price — Proven Dura-bility — High Trade-In Value — Low Maintenance Costs — Top Performance — Dependability . . . an

#### The More Schooling, The Better

We are in recipit of a letter from Bon. Michael Slarr, Federal Minister of Labor, suggesting that we surge young people to continue their schooling, instead of prematurally entering the workaday world.

We have dealt with this problem before but we are far from convinced that anything we, or other editorial

writers, may say will have an great effect on the situa

ritlers, may say will have an great effect on the situa-on unless not merely wise words, but also wise deeds all laws are forthcoming from other sources.

Mr. Starr appears to share this view. "The solu-no to the school drop-out problem rests with every another." The asswer must come from dustry, educators, governments, unless, and all or-mizations, as well as from the parents and the children chizations, as well as from the parents and the children

handiations, as well as from the parents and the children identications.

What is its nature of the problem? A recent study recorded to the redeath Department of Labor of September 1, 1987.

What is the state of the problem? A recent study recorded to the redeath of the state of Statistics aboved we consider the state of Statistics and Statistics

ses, but the importance of the skilled technician or maintains the machine in working order will

Increase.

Is any of this going to make much difference to ideal, the youth who is fed up with school? Hardly likely, a life, will seek a glob and more power to him. We hope lies we hee gets it. But we hope, too, that his employer, and most his union if he joins one, impresses on him how many homes with the world being the returned to school, leaving when the world have been used to be a support to the contract of the contract

imore valuable he would be if he returned to school, because, it is not returned to school the second of the probability will not make to our much of an impression of the second of the

RARE, MEDIUM, WELL-DONE By GEO. H. CARVER, Sports Editor

It was a nice clear winter's morning that day back in 1946. The sun shone brightly. The air was cold and a fellow's breath fogged from his nosirila.

He walked about the house, an urge for something to do making him fidgety. Gad, if II were only summer. His fingers itched for the touch of his golf clubs.

He stated alleys bewling—mixing the lawn game with it for a few years—and golf in 1924. And he has never missed a season. And this seventy-plus athlete is still strong and wiry and has the entimeteem of a man 13 years younger.

Joe's name is almost a household word in alleys bowling, has enough trophies of the golf and bowling chases to an ordinary room. He has sponsored, or explained and yed on learns for nearly four decodes—and never missed ession. The endurance of the gentleman is remarkable.

He realised the bowier's dream a few years ago an he relied a perfect 450 score in Peterborough un-Canadian Bowling Association rules. But pride of lievement far outranked the files prize money he re-red. That was the higrest moment of his sports

Mrs. "May" is a hale and hearty lady, hale in health and hearty in personality. She knows sports, especially the pro type, like Joe knows a bowling alley. She has a definite mind of her own, has her own graverities and is as loyal to them as their own wives.

f, with over atwitter. "What about the Rocket?"

Mrs. Legault knows hockey, basketball, football and nis. She is a regular attendant at games.

Who was the best baseball player in history?

Mrs. Legault's eyes mapped. "Ty Cobb, and don't us ferget it. He stole so many bases the makers couldn't ep up with him. And heaven help the guy who tried to sp him."

"Was he better than Babe Ruth?" a visitor asked.

"Rabe Ruth?" Mrs. Logault sized up. "Ty Cobb is a baseball player. Hebe Ruth, gave he hit a lot of on runs, but he put more base ixio empty air than other player in the pans. Des't you follows put Ty the and Ruth in the same breath to me."

2 for 24.99

Here's a grand family gift for Dad... one that will give him years of pleasure... and one that he'il really appre-ciate after each long hot working day! Gan't you just pic-ture him, relaxing comfortably in his sunchaise, out on the patio, or under a shady tree in the garden?

And note the extra-low price! Because of a large-tity special purchase, EATON'S is able to offer this lient chaise at a spendid saving . . . and you save more when you buy two!

Add up the value in this list of construction features;

- Lightweight 1" polished aluminum frame in roomy size 24"x70"... with tilt-resistant square-bend corners.
- Simple 4-position adjustment lets Dad read, chat, or snooze in comfort.
- Durable weather-resistant "Saran" plastic web-bing, (5 vertical, 17 horizontal).
- Chaise folds compactly for easy carrying and
  attacked.
- Four Summer-bright colour effects to choose from . . (has Dad a favourite colour?) . . Green and White, Yellow and White, Red and White, or all Green.

his own." But, "It's the "tarillispent" sport britant. Hundreds of thesemads see it every year at floridaspoint. The bit European rises started event that and up to the millions. There must be some-thing to the port that aftered people everywhere. And what about the drivers. They raise with the best in head portion business. It takes gets, add ill and a cool head and head to drive non of those racing bables at ever 100 miles per best around a treak."

"Did you ever ride in a racing car-do you know any-

associations? The ashed.

I told him my housersdays of racing care, their machanical develops and principal way very limited. I fideful know a facilitative of machanical develops and principal way of the fideful know a facilitative of machanical series of machanical series of the fideful known in fideful known and called a fideful known as facilitative of the fideful known and the fideful known of these from reveloped in ordered with Double has made of the fideful way! I'm historical was absolder—weall, let's past in this way! I'm historical way absolder—weall, let's past in this way! I'm historical way is not the first think way! I'm historical way in the first think way! I'm historical way in the first think way! I'm historical way in the first think way.

I related an experience I had years ago when I was tied by the late famous specificant driver "Pops" Cooper led in a specificant accidently to take a ride with him in "Pops.II" at a Picton regatts.

Men who drive racing cars and speedboats have rare admittedly, but if I wanted to do any flirting, at are, I would prefer the object of my affections to be a as Lollabrigida, not a dama named "disaster."

Like an incident (and accident) that happened whills was covering a stock-car race here a few years ago. I stock that he judger stand as the stock jobs clattered by. The was the occasional demonstration from the crowd as a careened dangerously, or two cars almost collided.

Then it happened. A car trying to pass anol-far stretch suddenly west out of central, swept track into a ditch where it turned turile three came to a hall, its four wheels slicking in the

Here's why: There are two kinds of car engines: high compression engines that need premium octane gasoline-and the great majority of engines that use regular gasoline. New TOTAL gasolines improve the performance of all cars-and are available in both regular and premium gasolines, new White Rose and new White Rose Ultra. Two TOTAL gasolines!

> More benefits! In year-round driving on new White Rose TOTAL gasolines, you can get from 3% to 12% more mileage and up to 5% more usable horsepower. Owners of cars with high compression engines can reduce wasteful pre-ignition about 70% and get over 145% longer sparkplug life. These are just the measurable results. The effective detergent action of TOTAL gasolines also eliminates the need for costly carburetor cleanouts!

Price? TOTAL gasolines cost us more to make-but they cost you no more to buy. No other gasolines in Canada give you all the benefits of new TOTAL gasolines-at any price! So start using-and stay withthe new TOTAL gasolines. Discover why the man who knows-buys White Rose

And Largest FRIGIDAIRE Dealer Brings You This Opportunity to Proudly Own The Only Modern Refrigerator

Refrigerator-Freezers and here's what FROST-PROOF means to You

Every homemaker knows that when frost forms in the freezer compartment of a refrigerator it means one of the most unpleasant tasks in the kitchen today ... defrosting. In Frigidaire's frost-proof, defrosting is eliminated because frost never forms in this amazing refrigerator-freezer. No longer must you contend with water dripping in the refrigerator and on the floor. You won't worry about food thawing during the process. No frost to take up valuable space and hide food package labels and you can forget all about scraping and tugging at frost-locked packages and ice trays. Day after day, month after month your freezer is clean and dry.

### Sport Slices ...

RARE, MEDIUM, WELL-DONE By GEO. H. CARVER, Sports Editor

WANTED:—By the Bay of Quinte Golf and Cour Club, Menodiy might from six to nine or later, 190 sin pickers. Males preferred; evaluates Islais and to-either sex, will be welcome. Members only. Remun-ation, the appearantly to play on the new mine holes losed ten days secour than a first satisficated.

Bring a pall or a backet in which you will pla r "pickings". There will be a tractor and a wag dy in which you may empty your containers.

Now to tell you what it is all about.

The fifth, eixth and cirhth fairways are cintered with small stones. These must be removed in order to facilitate the growing and proper cutting of grass. If they are removed the fairways will be green and "swardy." If not, they will be "clumpy and turty."

If this is done, it will speed the opening of the new tree considerably. A fair estimate is, it will be av-able within five or six weeks.

At the present a very good grass growth is apparent the course. George Balzaz tells me it has developed to more faster than was expected in the early spring. "As soon as we can start top-dressing the greens and start cuttle greatlary, it should not be too long effore the ceurse is in reasonably good condition," he aid.

The pro and his assistants have done a man-size ob on the new nine. But one swallow doesn't make a pring, and while the course, as he says, should be in reasonably good condition" it will not be in exactly erfect shape.

And while on the subject of golf the "Best Ball Battle" under the ampices of the CPGA is now under way. It is co-spoosered by the CPGA and the House of Seagram. The "Battle" is nation-wide but only clubs with a pro who is a member of the CPGA are eligible.

Members pay a dollar for the privilege of playing a ound or eighteen holes without a handlesp. The best sail of the field is picked and sent to the CPGA and checked gainst the screshests of other clubs.

The club with the best ball gets a handsome Sea-gram Silver Bowl and members get a medal or certi-ficate. The "fastile" started June 14 and issis through June 19 inclusive. So there is two days left to get in on the fun.

And games' skipper Sieve Bowerman tells me that a record field will turn out for the annual "Mr. and Mrm." stornament scheduled for the cisb links on Sun-day, Jane 26. The Spouse-and-Spouse Special has starteded couples from practically all the clube in the district and some highly competitive spil should go into the records before the Jone can seek Sinday avan-tion the records before the Jone can seek Sinday avan-

### The emotions of being a father...

The world is a scene of many changes. Every day fresh knowledge extends our horizons. New inventions create fresh wonders. New discoveries shape new opinions.

But some things are little affected by external changes. The emotions of being a father, for example, stay con-stant through the ages.

The hopes and fears . . . the wishes and apprehen The humbling realization that no other task in all the world carries with it so grave a responsibility, so rewarding a victory as that of being a father.

For where else does a boy look . . .

... for light which will lead to sure places for young feet

... for guidance through the great continent of the

... for strength of will and love of goodness?

... for those words and teachings that will open wis-

. . . for a held-out hand, a haven in every sudden storm?

Where else but to a father, who knows that every son is a miracle, like daily light.

The emotions of being a father never change. They flow from well-springs deep within us, as old and changeless as instinct itself. More than anything else Fatherhood is guidance and wisdom — the wisdom of setting a good example in thought, in word, in deed. And one principle that surely deserves to be exemplified is the practice of Moderation in all things. It is this thought which The House of Seagram wishes to leave with you on this Father's Day, 1960. May it enrich your life with happiness, and your son's thereafter.

To be a pharmscist now requires four years of college study. We must pass an examination to prove we have gained the knowledge neces-sary to enable us to safely dispense prescrip-tions and medicines.

We were also taught at college that every armacist is a member of the health team, deed to consider the protection of health, r most important duty. You can always be rain we will never forget this obligation.

YOUR DOCTOR CAN PRONE US when you need a medicine. Pick up your prescription if shooping nearby, or we will deliver promptly without extra charge. A great many people entrust us with their prescriptions. May we discuss yourselvers.

### Sport Slices ...

RARE, MEDIUM, WELL-DONE By GEO. H. CARVER, Sports Editor

The galleries and gollers of the current U.S. Open now under way at Denver's Cherry Hills Country Cleab, are getting kicks and thrills and of some of the off-threourse antics. Impetences Tenmay Boll was good for a laugh when he toused his citib into a pend and quit the tournaments in a fill of not-mercayeted prever.

For Instance, there was a relatively unknown pro-ssional from California, one Ray Atnaley who endeared meeff to every golf duffer and dub in the country. With the brilliant performance he became their idea and patron int. On the par 4 sixteenth he shot a 19, a record that. like Babe Ruth's, will probably stand forever.

Ainsley hit one into a swiftly moving stream that guards green, and stood flailing away like a late nineties farmer harvest time. When he stopped a little girl nudged her

A whimsical reporter of the day wrote an epic eye-witness description of Ainaley and his efforts to win gold glory. What he lacked in fact, he surely made up for in

"One of Ainsier's blows," he wrote, "lifted a speckled trout high in the air. One of the spectators suggested that Ainsier play the trout and not the ball. but as there was no USGA rule to cover the emergency the Call-formian took another notch in the pants of his driving belt and continued trying to hit the ball."

"He scorned treacherous currents that swirled about the ignored the dangers of boulders, seaweed and incoming tide. No man ever showed more game-

Eventually, the harassed hacker backed his ball into a outral eddy and blasted it out of the creek and beyond a see on the far side of the green. Then he had to thrash a way free from the underbrush.

He could have lifted the ball from the water hazard at penalty of only one stroke, but said he thought he had to y the ball as it lay, thereby gaining everlasting fame.

Then there was Willie Chisbolm who caredo an 18 on a miserable little par-three hole back in 1919. His trea shot off the tee dropped into a boulder-strewn raylor. Willie climbed down while his partner, Jim Barnes, remained on the bridge and counted.

However, there are no such colorful characters in the rent "Open" discounting Tommy Bolt and he pulled him-rout. Experts say the batch of divot diggers now com-ing is one of the best-balanced groups that American form's premier event has ever had.

So well-matched are the top performers, they say, that the winner needs the constant smiles of Lady Luck. Two men make virtually identical abots. One ball kicks of and trickies into the hole. The other wanders off

The United States hottest golfer, Arnold Palmer, was ed a hot pre-learnament favorite to cop the beners and ey. Xesterday he was well down. He is the biggest one-winner in history and what golfer will ever for-his unbelievable chips-down rally over the final few

But topflight golfer that he is, Palmer, against such a field will need Dame Fortune at the steering wheel of his ball, just as Robert Jones did when he won the Open in the year of his classic grand alam.

The ball should have dipped violer main in the water. Instead, if wer surface like a flat stone sailed by ded on the far side and Jones got hi sailed by a small boy es got his birdie after

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor

"Let me see. I think Johannson... He's out has dimples."

"Who's Johanness and Fatterson? Fighlers you say? How would I know about other people's troubles. My sid man starcs a right ever daturday night—and he's yet to win one."

"What fight. Who's fightion?"

Above are the solicited opinions of Harry Robinson, radio station staffer, a gal in the office, a housewife, id one of our lady contemporaries.

Our Mr. Alexander picks Ingy to win within five rounds, titerson has a wholesome respect for the Swedish punch in the starboard side, and will be wilted by it by that e. or before," says he.

Mark Storms thinks differently. Mark who kniws sentiting of the fight game figures Patierson has per-fected a defence against the Swedish "Thunderbott" and will stay "inside" so Johannson won't be able to use it. He-picks Patierson by a decision.

survey of some fifteen sportsminded people bro 12-3 verdict in favor of the champion.

A sixteenth ventured the opinion that the pro-will be the hig witners.

Personally we look for the champion to retain his size. If one is superstititions, if that is the right word, size-is always the record that teday ne defeated world enysweight has won his title back.

ck Dempsey might have turned the trick for seconds what he had Gene Yunney on the mat for the famous nount but look what happened after Yunney got up. wewers, everything must come to an end. That ap-is the "superstition."

We believe Johanneen will win because, first, he recess that "Ther Thumlorbelt" in his right hand, smilly he has fought Patterson before, and unless the Hongar has changed his siyle greatly, will know what

If Twilerson italisers have reduced his valuerability is his hand punches, he stands a better chance to win, member a couple of almost unknowns belted him to the twa, Rademacher and Harris, the "Cut-and-Shooter."

Okay, so he has improved a lot since. But can this ho leopard change his offensive and defensive spots su city to smatch the victory?

And we will re along with the Patierson fans to the extent that no one known definitely if Johannson can sike a saill spaceh. Their bey idin't land too many in the first class, and in the Swede's former figine (Machen, one round), the forem never had the chance is let lesse with the heavy artillery.

Then, ioo, Patterson will enler the ring with a known quantity in front of him. His supporters may be went late the first boat flavring Jehanneon was Just another fighter along the heavyweight trail. This time he mixes respect with confidence and if he can keep the Swide Tanalag" with that powerful right — well — anything

Mark Storms may have a point. He says if Patterson back-pedals" to keep away from the Swedish right, then ushes in close, and stays there, he has a chance.

But the challenger haar's lost any respect for the "thunderbolt," It pierced his peck-n-boo defence with a solid smash that sees Flord started along the shift irail in the first fight and he will be watelbling it this time.

Jehannson is in perfect condition, supremely confident and we believe he will climb through the ropes around the sixth or severally round, if not sector, with crown still alop his curly negtin—and a few hundred thousand richer.

> I want facts when I plan financial security for my family and myself

"I want to know how much income my family will haveand for how long-if I don't live to take care of them.

"And I want to see, in black and white, how much income I can count on for myself, if I live to retirement.

"That's why in my financial program life insurance comes first-in the all-important matter of future income, it gives me guarantees.

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor.

Monday night the Swede entered the select circle of the "Sides with the Golden Arms." He jetned the Millionaire Slable, the select few of ringdom's reyally who have greated over a million—three of those two million—with their first or fame and reputation.

For logy will enter the select seven-figure class when he blicets the take from his get-together with Floyd Patterson t New York's Polo Grounds.

ch comes scong.

However, Ingy can now give the "Shove Over" number is a supplied to the gold as Jack Dempsey, Gene Tr.

Louis, John L. Sullivan and Der Maxie Schmelir

The first three ground over two million with their fixe. Sallivan garnered well over a million, due to prize ring fame and extra-corricula activities.

Designer and Transport as the name. Looks in queri-ing fee a tiving. Sullivas agunadores his and her Maste-ing fee a tiving. Sullivas agunadores his and her Maste-well—he were back to Germany where he was in one of the painter-corporar's plations, and grobably denated his American rate look to the Talestraind. He made have golden eggs than any other foreign fighter, about \$1,560,000.

Tunner hid six fights before he met Demper, but his thesee we little better than peanuts with ne tax shells. He pleind up 2004.00 in the first Demper Raft: 1994.445 in the return best, and \$225,000 in the Henner builts. He never fought after that. His lifetime ring estraings are said to be \$2,294.445.

John L. osmed \$1,221,326 during his public lifetime but only a small part of it came from his ring effects. His objects thire in any fight was \$15,000 when he fought Herbert Blade three rounds in New York in 1933. His carnings for six fighis price to 1822 when he won the title, fothlied \$3,226.

### The Height of Futility

There could hardly be a sorrier comment on the state of international morality than the "farewell sainte" given President Eisenhower by the Communist Chinese, when their mainland guns pumped a record 88,700 shells into the small Mationalist-held island of

Of course it is true that the Nationalists have used his island, in the past, and other off-shore isles, to supper shipping in a manner which is humiliating and insulting to a great power.

But the Communists "farewell" when Eisenhower salled from Formosa will hardly have done much to end the Irritating practice by the Nationalists. All it secomplished was the destruction of a military hospital, its schools, 200 homes, the wounding of 80 persons and the killing of fourteen.

If there were any need to demonstrate the futility of war, surely this bombardment accomplished it. Yet, we can be sure, the demonstration will achieve nothing. It was itself the height of futility—but 14 died.

## Sport Slices ...

RARE, MEDIUM, WELL-DONE By GEO. H. CARVER, Sports Editor

Thanks to a fine group of sports and community-minded men,the youngsters out around Faubers, Caunif-tes and Carmel way are getting organized beseball.

A short time ago the South Hastings Little League Base-ball group was organized. The first game of the young four-tam circuit gots under way tonight. It's abbreviated schedule gapears elsewhere.

Its four teams are Foxboro, Carmel and the Comets and of Cannifton. The age range runs from It to 10 years.

"The youngsters wanted to play baseball and felt it was out of the question to join one of the city testen," youthful John Françiou, the league sourciary, told this respecter. "So is few of us of the district decided to do secrething about it."

The young learne struggling in its infancy has me with some support from expansitions and individual in the area. Women's individual to the reason of the fivor of the more and have helped with financial dens tions. The Young Adults of Camittees have also aniston as have some individuals.

The only source of revenue will be the silver col-en at the games, and contributions from other sour

The youngsters have entered into the idea with all the entansiasm of their ages. It matters not that they have no uniforms at the moment, but they feel sure that the time will come when they will take the field in the full paraphernalia of their baseball big brothers.

They have been assisted somewhat along equipment lines by the teams of the South Hastings Baseball League. After all this 'oldest' loop in the district should take a more than pessing finerest in the dismond weiters of the young-stern, for H is their "feed-box" of the future.

And during the fiedgating period when the moppose and their conceive are weeking hard to get on a more or less solid foundation, it might not be a bad idea for teams of the South Rantings League to take those Little League squade under their wing until they are away and frying.

Perhaps, if this department is allowed to make a sug-resion, the "big brothers" could densite the "sake" from one of their league games to the kids. It would be greatly appreciated, besides being an investment in the future.

"If our hittis efforts are successful—and we think ther will be — we hope to expand the little learns next year," John Finnpion and, "We hope to include Read, Latin and other "Die learne" occures. We could have six or aven teams in the circuit next sesson."

The South Hastings Little League is not associated or con-cied in any way with "Little Leagues" as they operate in her rural and urban cortres. It is strictly a "South Hastings" eration, conceived and born by the group that is its guiding

The youngsters had formed some semblance of teams o their own but were not organized, and distance and other har riers prevented them from applying to city leagues.

"They were at a loose end, with nothing much to do, so we felt the least we could do would be to help the youngsters," an official said.

It is understood that Booths Radio & TV, a city firm that done and is doing some wonderful things for minor sports, donated a trophy to the new league.

Freident Loren Jarrell and his sixentive are to be commended for a fine community resture. They are pre-vising wholesome spect for the youngsters of their dist-rict and area and are descript of all the support, finan-cial and otherwise, that can oome their way.

They have set a fine example, worthy of emulation by, or assistance from, youngster-minded people of other parts of the district,

He Thinks Porpoisely!

Dr. John C. Lilly of the Communications Research Institute at Sr. Thomass in the Virgin Islands is probably a very unhappy scientist about this time.

The Canadian Fress, reporting on Dr. Lifyer porpolese, has quoted him as saying dolphins "see least the equal. If not superior to, man in bran power" and then, later in the same story, has declared that Lilly is not yet prepared to say whether dolphins are all the seed of the property of

adictory, but perhaps they are not. Perhaps brain ower, in the sense Lilly used it, refers to the respective specifies of the dolphin's brain and man's brain, while

"Expansities of the dolphin's brain and man's brain, while inhelighteen may be considered as the degree to which this expansity has been utilized.

The consideration of the consideration of the con-sumable between Dr. Lilly and The Canadian Press, we think it will be much more interesting to leave them, the better due, I any, and consider the reason why Dr. Zhily is not able to say whether dolphins are as intelli-gient as zero. In the words of The Canadian Press this is "principally for lack of common ground by which to come the De do man and dolphin."

History was the second of the

whether extra-terrestrial beings are taking indergraten whether extra-terrestrial beings are taking indergraten or courses in how to deal with human beings—and by what standards of intelligence they may judge us.

The prospect of man being reduced to play the role of a porpoise for some dry-land Martian version of Cypress Gardens is righter frightening.

When tested in a fleet of ambulances, TOTAL gaso-line benefits improved mileage 12%, A tax fleet en-joyed a 3% increase which improved still more after the detergent action elimi-nated carburetor deposits

The benefits built into new White Rose TOTAL gasolines have been proven in exhaustive laboratory and road tests. One of these is the improvement in usable horsepower.

What makes all these benefits possible? New TOTAL gasolines successfully combine-for the first time in Canada-the major advances known to petroleum chemistry. TOTAL gasolines are produced in both regular and premium octane grades: new White Rose and new White Rose Ultra. That's because TOTAL benefits begin where octane benefits leave off. And you pay no more for them.

RARE, MEDIUM, WELL-DONE By GEO. H. CARVER, Sports Editor

Rip Hawk and Rock Hunier, the gurs with the fale-vision names, had better look to their pleture tubes and antennae here tooight. They targe with, he Mighty Junbo, the Pers-Shaped Pachyderm, and his fiying thapses parkore, Frenchy Vignal, isle of Paris, in the main bout at Memorial Arens.

The Rijo-Bock due is tough, there's no way of getting around that. And they combine speed as a covering agent with their victory-at-any-price callsthenics. The Jumbs will have to tearl-pey 'em if he wants to use his "Splasher." Frenchy must needs plupoint 'em with his stying kicks.

So the Hawk and the Hunt go a-stalking for hig game tonight, SIT pounds of on the hoof to be essent, and the resulting clash could well be the battle of the

#### GO-KARTING

Go-Karting, claimed by its enthusiasts to be the fastest-rowing sport on wheels in the country, makes its Belleville abut in Memorial Arens tomorrow night.

Jim Meens, promoter here, says the meet will be of international flavor with picked American drivers jousting with the best of their Canadian counterparts in the district.

They my the sport started when a Glendals, California, belrodder started tinkering with the idea of a small stripped down racer which could be powered by a single-pision, two-stroke motor. In 1917 the Ge-Kart of America was formed and it spread scream the United Sister, liker to Canada.

The sport has spread to this district. Clubs have be ormed in Peterborough, Belleville, Kingston, Trenton, ourg, Port Hope and Oshawa.

Belleville curious will get their initial viewing of these ministures in action tomorrow. The first race gets under way at eight o'clock.

#### BORSES AND HARNESS

Hunters, jumpers and ponies will perferm in Belleville's first individual horse show in years at the Fair Grounds to-morrow starting at noon. The Quinte Riding and Driving Club is sponsoring the show with many fine horses entered from the city and outside points. Outstanding trophies will be awarded the winners.

Win or lose... there's going to be a "home run" tonight on the family's hot water supply. Active youngsters use a lot of hot water at bath-andbed time, but with electricity on your side you'll be ahead of the game.

Install a modern, two-element electric water heater of the right size and capacity for your family's needs. Then, when you scrub, tub or do the family washing, you'll always have an ample supply of hot water waiting for you. You won't have to wait for it. And, thanks to electricity, you have the extra reassurance of safety and absolute cleanliness in op-( eration. To get more out of life, get the most out of electricity.

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor

The erstwhile gay flickas have lost their vivacious-ness; the Yohanns, Svens and Larsens are staring into beakers of Swedish punch that somehow has lost its "kick."

In Stockholm, the nation's capital, the topflight spo-rnalists, have written the boxing obituary of one Ingen-

"Quit fighting, Ingo, you are through," they calheir typewriter punches were as hard and to tall as that fifth-round Pattersonian left hook.

There was no attempt to after excuses for the former mpion—the first Swede to win the world heavyweight. The maninesse opinion of the commentators was it he return first was clean and fair.

They said Patterson was by far the better fighter and Nohansson paid the consequences for his conceit before nding the crown he won a year ago.

Even steried Goteburg, the "sie home town" where y and Birgit used to gambol on the greenward and ie in the schoolyard, turned against its shining haight thin the space of an hour—or loss.

Harry Hjorne, one of Johansson's most selld sup-ters, and a newspaper owner, said that Engo's thoughts been deminated too much by money and gains from

"That proved fatal is Johansson's case," he said. "On other hand, Patterson was inspired by the idea of making omeback and that gave him vitality."

mether communicater who probably lost never red hrence on the caratwhile Dimples Darling ation, inited rather breadly that large's victory ov-rown last year was just pure luck, that he nev-fectived heavyweight championship.

The outcome of the fight was as severe a joit to the good edish folk as it was a surprise to a lot of people, in-ding those supposed to be in the know, on this side of the antic. Counting, of course, one longenar Johansson, who is the most surprised person in the hemisphere.

He is probably paraphrasing that old little red school-se ditty, "Patterson's books may ruin my looks-but names never hurt me."

Kroner, rubles, pounds, yen, drachmas, francs, dollars, pesos, Ingo loves the coin of any realm. Furthermore, to his credit, he knows what to do with it.

He swins a half-dozen thriving businesses. His rin of uphalaters a generous part of the interior of a Swis als. He will dedicate another room when he collect cool million, plus, from his recent 13½ minute rick as a punching bug for Patierson.

For he will fight Patterson again as sure as you are a foot high. Don't believe this caterwalling from some quarters to the effect that Patterson wants foour, Yelloon. Both the new champion and his hanger-on ex-canneer—One Names knows which piece of ring toust is buttered with the heavier good.

And I am of the opinion the third meeting between Flord and Ingo will be the battle of the century. J believe that it was a case of abort-selling and lack of presper condition on Patierson's part in the first fight and the reverse in the second.

And twenty years from now Ingy will be sitting with Birgit in his plush Swiss chalct atop a private Ab, watching the little Johannsons ski home from school— and yedelling "I remember when . ."

# SUCCESS is security for you...

HAVE YOU ENOUGH SECURITY? A successful man realizes the value of security. Unclouded by worry, his mind can function quickly, efficiently. He is not afraid of tough jobs, cupil decisions, because he is not afraid of the future. Think! Are you this sure of yourself? Do you have this kind of security?

security?

No man can prev know real security unless his future and the future of his family is safe, Successful men realize this early in life. They protect this family is a safe, successful men realize the surface of the families is unconditionably pursuance. This is a good feeling to have . . . it feeling that gives a man confidence, courage, it is a feeling that can make a man a successful.

How about you! If you don't have enough security . . . maybe it's because you don't own enough LIFE INSURANCE with valuable savings features. Look into it. Your LIFE INSURANCE man is a most important person to talk to on your road to success.

#### There is no substitute for Life Insurance!

I you sond success you need: SECURITY to give you freedom of mind... CON-FIDENCE in yourself and your future... EXTRA MONEY to serie opportunity. And in the later years, when you'll appreciate it the most, LUSSINE to miye the records of your achievement. These are the ingredients of success. These are: the kings that LUTE BUSHANKE on help to they work.

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor as to case more people should inquire, the "Miss est," which finished second to "Miss Thriftway" in emorial Cup race in Detroit on Saturday, is NOT the Superiest" which will defend the Harmsworth Trophy on next August.

cton next August.

She is the "Miss Superiest II", elder sister of the ck champion which lies snugly at rest in a farm shed at London, Ont. "Miss Superiest III" will do racing until the colorful classic gets under way on inte's Long Reach, near Picton.

"Miss Supertest II" actually is the trial and less rue for her younger, more beautiful sister. She will be again at Berfiale in pienty of time to allow Col. rdee Thompson, designer son Jim, and driver Bob Hay-

It ws incidental to the Thompson-Hayward trio and crew the champion, that her elder sister finished second last surday. They entered her for more important reasons than blue ribbon of victory. At that she gave a highly ditable performance.

One reason is to give the intreplé Hayward racing harpness and experience. The other is to test certain occhanical parts which, it if they behave as hoped for, will be transferred to "Miss Superiest III".

Col. Thompson stated the other-day there are not suf-ent parts to south both "Superfests" and it would be possible to rice both boats at the same time. He added at anything happened to the new boat at race time in goat, it would take almost a week to make the transfers centery to get the old one running.

"We have to have the champion in top form," Col. hompoon said. "The Americans are sending a three-out team against us and that's the big challenge. It puts se odds against us away up."

Which recalls that day some years ago when the "filter Fox of Dertrit," the famous Ger Wood, entired three American bosts against Keye Doe's British entry. The cases Wood, well-camed the "Fox", sent one of his "Mile good, estar" bounding across the start line shead of the gud, drawing the English boat with him. Both were disqualified and Wood wrate on to win.

The Americans, with three boats in the race, are practically sure of at least one finishing. The Canadian defence will rest solely on the sleek hull of "Miss Super-test III".

The paris being tested in the champion's "older sist expected to provide more durability, it is stated, y don't, not a nut or bolt will be changed on "Supert

There was pride in Col. Thompson's voice when he said, "We're not going to tinker with her. Other than to strip her down, we haven't touched her since we look her out of the water the day she won the Harmsworth Trophy. She's IT, and it took us five years to get there."

And you wouldn't call "Superiest II" exactly a sing-gard or a loader. She's a battle-scarred cruiser of the racing waterways, but of different dimension and hall than her proof young sister. She weighs 660 pounds more than the champion, who in herself is a buxom three

The new "Miss Superiest" is superior in accelerati nd handling. But the older one had her proud monses oo. It was this boat that Bob Hayward drove to a the weed straightaway speed record of 185.54 mph at Pict n 1857. She won seems three events in her hayday.

in 1875. She were seen there events in her hayday.

Indefentality, it is noted that this year will be the last few sations to enter three heats. The Harmworth Dood of Ulti has changed and starting next year each sation of Ulti has changed and starting next year each sation that the last few the Americans to "field a tell" of exists and year and the year life they'll be in three with all stopy out. They held the coveded trophy for 29 years and they will fight be the bitter odd to regain it. They'll beat will fight be the bitter odd to regain it. They'll be all they are the property of the property of

Col. Thompson thinks the site for the Harmsworth de-fence is ideal. "It is sheltered in an inlet a few miles from Picton," he said the other day, "and the view from the bluffs overlooking the course is magnificent."

Six weeks ago new White Rose TOTAL Gasolines were introduced. In those six weeks, Canadians in record numbers have switched to TOTAL in either premium or regular. Sales success is one thing. But most important to us has been the performance success of new Gasolines. Here, from your letters, is proof of the benefits that are yours only in TOTAL

\*A Maritimes motorist: "My car has pep and performance I've never experienced before."

A man from Saskaioon: "TOTAL Gasolines have stopped my car from stalling at intersections."

A Nova Scotia bus driver: "My gasolines savings are 50/4 a day, since using TOTAL on the same route."

50¢ a day, since using TOTAL on the same route."

A businessman in Alberta: "I'm saving 1¼ to 1¾ gallons on round trips between Edmonton and Calgary."

A Chevrolet owner in Quebec: "My mileage is up from 19.0 to 22.1 miles per gallon."

A Manitoba motorist: "My mileage jumped from 18 to 20 miles per gallon on highway driving, and acceleration is now as smooth as a cat's whisker,"

A truck driver in New Brunswick: "This is the first time I've made Fox Creek Hill in high gear."

These are only a few excerpts from the hundreds of letters we have received praising White Rose Gasolines. Obviously our claims have been conservative. But we are not raising them. We still promise 8 to 12% more mileage, 9% more ussable horse-power, 10% less pre-lignition and over 145% longer spark plug life. Only White Rose Total Gasolines have everything—ERGHT major benefits that sauser you of the finets provan economy and performance from a motor fuel in Canada. Treat your car to TOTAL gasoline bday.

By GEO. H. CARVER, Sports Editor

"Do you believe," the man on the telephone said that the teams leading the American and National tarchall Leagues on July 1 will win their respective

'Not necessarily," he was told

"It makes no difference," the voice said, "The American League pennant and the world series this year are strictly for the hirds."

"Meaning?"

"The Orioles. Baltimore, mon ami," There was a

It want't Faul Mereter. He's too busy figuring the odds on Rocket Richard's return to or retirement from the pro bockey wars. It wasn't Tommy Mascars. He's loo busy counting the knote in the tail of the Detroit Tigers.

Ner was II Gary "Ubbespible" Alexander whose one ray weeps for the Dedgers, and the sider gleans with adultation over the abovelar of the Trackers. It was an old stury buddy who hoped poor of harm-leit twenty-five pounders in the bliodiests battle of Peda-ware. It seems has a county, notoe problem-lines pow with a girl who knows the cook for the Orioles' boss-man bull Richard.

After the third storming of the blueberry patches near, nigomery Crossing and the final capture of the cement Pip on the lower ranges, the boy got down to business.

"There is a striking resemblance," he said, "between 1355 Chisox and the 1360 Orioles. Paul Richards rs are winning one-run games. He warmed up. "Of the Birds' first 82 games, 22 were decided by one run and the Flock won all of them. After the first week of the season the Orioles' record in this department was phenomenal. They took the opener against the Senators 3-2, then dropped five in a row, three by one

After checking the records, we discovered old Biddy lidy, now from Baltimore, was right.

"What you really need to win the close once," the Orioles' manager says, "is a good defence and good pitching. That's why the Yankees were so lough for years. They got one run shead—and held on."

That deem't mean to say they will. Measura, itchards and associates are not speaking in such optimitie terms. They do admit, though, the one-run journal hows the Orioles are a sound club, one with determination as well as ability.

Richards pointe out it was the Birds' timely hitting, not the pitching that was taking the "aqueakers"—that is until recently. Lately the pitching has been grade "A". On June 19 Wilhelm and Pappas recorded their first shutonia. Jack Fisher, Jerry Walker are riding high.

Okay, okay, buddy, but when you're gathering the eggs, just keep an eye on those roosters from Chicago, New York and Cleveland.

You say you favor the half-sleeve jackets for men. As sted, it is your privilege and your right. It is also your nan's prerogative to tell the world your opinion.

But since when here worken print opinion.
But since when here worken some publishy to the fewelrent in 'praising or criticising men's appeared.
Heaven knows, the darlings have taken over precidently correspint that has been invented for the maile, with the exception of meconiaches, beards, shoulder pade and end-of-the-month bills!

Have you ever watched a "Popeye the Sailor" cartor television, or the motion picture screen?

I know a lot of otherwise handsome men who are blessed with the same type of sausage forearm. In some cases you can scarcely note the tattoos through the hirsuic under-

Of course, on the other hand, perhaps short-sle inckels have their good points. There would be less striction for the sollow-bending fratestrix. Rowlers, it and siler, could add a social note by playing with sice on. In rare cases, some would have to carry hand chiefs and become accustomed to table amphins.

Or-Gad, no-it carnot be they're thinking we topcoats as well!
